

TANZANIA (UK) TRUST COVID edition May 2020

www.tanzaniauk.org.uk charity no 1133490
Bank details: 08-92-99, a/c no 65382637

Thank you so much for your responses in prayer and finance to the Corona19 situation in Tanzania. Some of your giving was ahead of my asking: so that shows your hearts are with our Tanzanian partners. Thank you. Tanzania has responded in a very Godly way with President John Magufuli calling the nation to repent and pray. And they have. As you know, they do not have the health infrastructure, doctors, nurses or equipment that the wealthy West does, and no social security benefits. The risks are high but our God is bigger and their faith in our God is strong. The spirit of fear which has so negatively affected the world, has also swept across Tanzania, but the President and our partners stand in faith in a God who cares for them and hears their prayers.

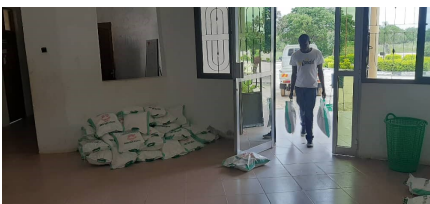

Some of the team with Zeph, outside the Health Centre, now 2 years old, pre-COVID. The government has asked that Health Centres place people in isolation rooms if they have C19 symptoms, so we have prepared 2 classrooms with mattresses and 1 room for changing clothes, in the closed Church School opposite the Health Centre. There is hand-washing outside the centre and the Government has supplied masks so that everyone entering has to wear a mask to protect the staff and other patients. There is no specialist care for C19.

Thank you for your donations towards PPE for the team.

Hunger is likely to be a serious problem as so many people cannot work now and there are no benefits. The issue is compounded by on-going floods, which is unheard of at this time of year, affecting their infrastructure and also the whole of East Africa is threatened by the swarms of millions of locusts hovering on their borders.

Thank you for your donations which have gone towards sacks of Maize for the poorest families in the area.

If you would like to give for the on-going support of our partners in Dodoma as they face a complex crisis, please pay electronically into the account above. We are sending out money this coming week and at the end of the month. AND PRAY!

“My gracious favour is all you need.

My power works best in your weakness.”

THANK YOU FATHER THAT YOU ARE THE GREAT I AM

In the middle of COVID, after waiting nearly 2 years (!) we had a phone call saying that they will inspect our MAMAS UNIT prior to opening. The team prayed so they could furnish it, they did and then the inspectors have not come—yet! Pray they come! And with the promised Government fridge!
