

MAMAS UNIT OPENS

At long last the Mamas Unit has opened. Our Midwives Eva & Dorcas have joined the Tazama na Tunza Health Centre team. This will serve the

local community by offering free care in pregnancy (including HIV) & care for the baby & mother after delivery. We have been really blessed at how the money has come in for this—sometimes before we even asked. This shows just how much God loves this Tanzanian community and how much Jesus wants to care for them & make them whole with His love. Thank you so much to everyone who has been prompted to pray & give.

The opening was very well attended.

ULTRASOUND NEEDED FOR MAMAS

In order to keep pregnant mothers safe, we need an ultrasound. This means that when a mother comes to our Health Centre with a difficult pregnancy, our Midwives Eva , Dorcas (or Bertha) can scan the mother to see if the delivery is breech, twins etc: in this way helping to save the life of the mother as well as the baby. **We need to raise £4,000** for this. The training on using the Ultrasound scanning will be done by Tanzanian Public Health and will be updatable, including care of the equipment.

I myself would be dead (and all my children) were it not for NHS provision: my first pregnancy being breech twins.

AUTUMN

NEWSLETTER 2020

ANSWERED PRAYER:

***C19** is not as serious a health & financial issue as it is elsewhere: the Prime Minister called the country to fast and pray 3 times & God heard.

*The **Locusts** on the borders have not invaded Tanzania as feared, so crops can grow.

*The **Health Centre** still needs our Financial Support, as it gets established & the staff & equipment expand; each month the miracle of enough money is there to give: **thank you Father.** (most healthcare in Tanzania has to be paid for by the patient)

*We continue to **support Mission** in Tanzania as Samson & the Church train & send out rural pastors into Muslim and unreached areas to teach them God's truth & love.

* The **Church School** is growing.

There are 524 deaths of pregnant women in Tanzania per 100,000 population, compared to 9 in UK, due to lack of provision and care in pregnancy. If you would like to save a baby & his mama, give £40(for 1 scan) or more, or help to Fund Raise for the Scanner: contact Ruth on 07854688373, or just pay into Tanzania a/c sort code 08-92-99, a/c no: 65382637, designating: "mamas".

TANZANIA

(UK) TRUST

NEEDED

***Prayer for our Youth Trip** visit to Tanzania, which is delayed to ?Jan'21 as we wait for our Emirates flight repayments from July and to see how C19 virus affects the world.

*Someone to take our Charity onto **Facebook** and run a Facebook site for us: anyone interested ring Ruth 07854688373
