

News & Prayer letter July 2021

Praise God the Health Centre server and computers are now working again!

Praise God that the Health Centre: Tazama na Tunza Dispensary (TTD), works so well under the Dodoma Church ownership.

Here is an example: last week a girl was carried to TTD, having been unconscious for 9 hours. She roused, and a medical history was taken. The Doctor then asked the father to come, the girl deteriorated and they carried her to the House of Prayer. The girl and her family were prayed for. Jesus healed her and here she is (in the white headdress) with Leah, the Prayer Pastor, and the girls' family. Zeph says that this has happened with about 4-5 Muslim families recently and the families are even bringing other Muslims for healing, both at the Health Centre and in the House of Prayer.

The Dodoma Church is growing as more adult baptisms continue, as people find God.

The Health Centre now has a bicycle for using when they collect the babies' vaccines from a local centre, as we still do not have a Government regulation fridge for this!

PRAY ON FOR:

Wisdom School needs Sponsors for 15 children who cannot afford the fees (Tanzanian schools are fee-paying) and Compassion no longer pays their fees.

Finance for Pastor Zeph to complete the purchase of a car he needs in his new national role with pastors' families

Pray on for a Government Fridge for the Health Centre!

Pray for us in the Trust to know when is God's timing for us to visit Tanzania this year/next year

The Mozambique Mission Pastors, sponsored by the Tanzanian Church, who went through the IS related raids in March, are now settling in new regions and they and their Churches are thanking God for His care of them. Pastor Mariano is also now well from his TB and his loving Church is growing.
