

## News & Prayer letter October 2021

We are so grateful to God that His Church in Dodoma, Tanzania, is thriving and growing. God is amazing! In the midst of all the world-wide crises, His church is growing as people turn to Him, and then help others to receive His love and kindness.

The Tazama na Tunza Health Centre continues to grow in reputation as a place for trustworthy care and treatment. They encourage the community to be healthy by teaching them how to look after their health, including avoiding Covid and having the vaccination (which is delivered by the Government's Public Health). The uptake so far has been low, so we have also provided the Health Centre with Covid information in Swahili to give to patients .

The Health Centre is run by paid staff and volunteers. Pastor Zeph is pictured here with Volunteer Nurse: Rhoda and Cleaner Pendo. The Health Centre is now open 24 hours a day and the patient numbers are increasing. Sunday is a day of rest. In August 1,221 patients were seen by the Doctor, had any tests they needed and were treated by our Pharmacist or Nurse: all at the Health Centre. If the patient needs prayer, whatever their faith, they are offered prayer in the Prayer Centre next door, and many are healed and others come to know Jesus.

### *Social Justice*

*Why do we, as a Charity, work with the Dodoma Church? Because we have been drawn together by a partnership of love and faith in our Father. The poor in Tanzania have no social security to support them and School, Health and services all have to be paid for by the individuals and families: so if you have no wage and no yard to grow crops in for food, then life is very tough, especially if you are ill. This little girl is a member of Zeph's Church and they support her helping with her education and healthcare.*

**Would you like to get involved?**

**We need help with:**

- \*Starting and running a Facebook page.**
- \*Being a Link worker to our Charity—we usually do trips to Tanzania every year—except when Covid has stopped us!**
- \*Collecting any good second hand mobile phones/iPads/laptops to take out.**
